ABOUT ECLIPSE STAINLESS

For years quality fabricators, custom home builders, designers and remodeling specialists have trusted Eclipse Stainless to supply them with quality sinks and faucets. Eclipse prides itself on its innovative product offerings, including this new packaging, that make selling our products easier than ever.

Our exceptional customer service department is ready to serve you with quick delivery from multiple national distribution centers.

Faucet replacement parts are available.
Call us at 800-477-2217

*Thank you
for your continued business.*

We value each of our customers and urge you to contact us with any questions or comments.

You choose your sink and faucet. We include free grate(s), free strainer, and a free soap dispenser all in one convenient package!

See reverse for more details!

PRODUCT FEATURES & BENEFITS

The new "Total Eclipse" package contains all of the accessories needed for a complete sink installation for convenience and a tremendous value!

Every "Total Eclipse" package contains:

1 A cast stainless steel faucet with the highest quality ceramic disc cartridge

2 A 16 gauge stainless steel sink (four styles to choose from)

- All faucet components including spray head and body are sand casted and hand finished. We use only #304 stainless steel and #308 stainless steel solder. Our competitors make most of their faucets with brass or copper; These metals contain lead.
- "cast, solid stainless steel" This means you get the highest quality of #304 stainless steel. This stainless steel product will hold its finish for a lifetime. In addition, it contains no lead, copper or brass, meeting all current requirements for lead-free faucets.
- Our pullout faucets feature spring tensioned retractable hoses.
- "16 gauge stainless steel" What does "16 gauge" mean? This refers to the thickness of the stainless steel. The lower the gauge, the higher the quality and strength. The industry standard is 18 gauge. Our 16 gauge allows quieter water flow and is more dent resistant.
- Sink pads and undercoatings: The "undercoatings" of a sink help with soundproofing, condensation and noise reduction. The pads reduce "pinging" within the sink.

3 All comprising sink accessories are included in this package: grates, strainer & soap dispenser.

All our sinks and faucets have a perfectly matching brushed stainless steel finish.

Extensive Warranties: Limited Lifetime*

All our products are rigorously tested and certified through the most acclaimed agencies including CSA, SGS, ADA, NSF 61, UPC & C-UPC.

SGS certification: Report # 27220-11-10-2003
CSA certification: Report # 1703928-2-27-2006
